

**INCREASE YOUR
MANUFACTURING
EFFICIENCY ≥ 8%**

Trunovate's PlantSharp4 maximizes quality, quantity and scheduling productivity

Trunovate incorporates decades of manufacturing, hardware, software and planning expertise. Our mission is to facilitate a handshake between humans and machines to achieve fully optimized and automated production efficiency. We streamline each part of the manufacturing process using automated, secure, cloud-based and on premises software that tackles the industry's strongest pain points. PlantSharp4, our best-of-breed smart industrial Manufacturing Execution System (MES), brings the transparency, responsiveness and insights needed for the highest levels of ROI. Our smart industrial software suite enables humans and machines to collaborate as one unified team, so your manufacturing company can leverage the next wave of innovation - Industry 4.0 and soar to new heights of value.

Trunovate MES for Smart Manufacturing

-  Guaranteed increase in profit margin by reducing waste
